### RESTORATION OF PALESTINE

Learning to rebuild Palestine by aiding in the restoration of devastated Northern France, is the remarkable means proposed by Polish Jews to reach the Holy Land as soon as possible and aid in the establishment of the Jewish National Homeland.

The plan, now under consideration by the French and Polish Ministries of Commerce and Labor, was proposed by two Galician Jewish leaders, Dr. Alexander Hausman and Dr. Herman, both journalists of Lemberg, and has been enthusiastically approved by over 100,000 Polish Jews, according to a report received by the Zionist Organization of America, from "Le Peuple Juif," official newspaper of the French Zionists, published in Paris.

These Polish Jews, according to the report, having no means with which to secure transportation to Palestine and lacking the practical training essential to the efficient rebuilding of the Holy Land, agree to spend a minimum of one year, aiding in the restoration of Northern France, if at the end of their term of service, the French government will give them transportation to Palestine.

"In the Jewish centers of Poland, many thousands of signatures have already been secured to a memorial urging the French and Polish governments to adopt this plan of fulfilling the hopes of these ardent Jews and at the same time assisting France in her problem of reconstructing the northern part of France," the report reads. "There is every chance that it will be favorably acted upon by both governments."

Dr. Hausman explains his plan as follows: "France, with her present acute shortage of labor, needs several hundred thousand laborers for the rebuilding of its ruined provinces. The destitute Jews of Poland, eager to reach Palestine, need transportation facilities to the coast and above all, a preliminary training of at least one year in building construction, road building, agriculture and all kinds of pioneer work."

"A pact with the French government, dispatching labor battalions of Polish Jews to Northern France, is, under the circumstances, a providential arrangement. The major part of the wages, after a term of service has been agreed upon, is to consist of free transportation to Palestine."

To handle the administration of this vast army of workmen, Dr. Herman proposes that it be organized and directed by the Zionist Organization, which should assume full responsibility and make the necessary agreements with the French government.

"Le Peuple Juif" points out that these 100,000 Jews are almost all destitute because of economic boycott pogroms and the present condition of Poland and that they are practically all city people with no knowledge of the practical problems of reconstruction to be faced in restoring Palestine.

These 100,000 Jews who have volunteered for labor service in France, comprise but one-fifth of the total number of Jews ready to leave at any time for Palestine, according to the Zionist Organization, which has a report from Dr. Jerzy Rosenblatt, member of the Polish Diet and now in New York conferring with Zionist leaders, that 500,000 Jews will emigrate to the Holy Land as soon as the British mandate is established and Palestine made the Jewish National Homeland.

### BANDIT'S LIFE ENDED

Kit Dalton, cf Jesse James Fame, Dies With Beats Off

Memphis, April 5.—Kit Dalton, the last survivor of the famous Jesse James band and the Quantrell guerrillas, will no longer be seen on the streets of Memphis clad in the uniform of a Confederate officer. He died Saturday, with his boots off, penniless and at the age of 78, in a boarding house here.

Broken health accomplished what Federal officers were unable to do during his 17 years of outlawry.

The story of Dalton's picturesque life is more thrilling than any work of fiction depicting bold robberies. He started his role as bandit under the leadership of the James boys, taking part in the hold up of thirty six trains, eight stage coaches and the robbery of twenty-one banks. He plied the same means to a livelihood with the Quantrell guerrillas and the Bass gang of Texas.

Dalton forsook banditry to become a gambler in Memphis when the Federal government granted amnesty to all civil war raiders. Later he reformed and became an evangelist.

### TO TAKE TRIP TO MOON

Inventor Goddard, However, Says First Passenger Must be Man of Iron

Chicago, April 5.—There are at least nine men in the United States who are willing to take a trip to the moon aboard a skyrocket. Professor Robert H. Goddard, head of the physics department at Clark College, Worcester, Mass., has their applications in his pocket, he said, on his arrival here Saturday.

"But the construction of all these men are human and therefore too fragile to be acceptable," said the professor. "The first man who goes to the moon on a rocket will have to be an iron man."

Professor Goddard is the inventor of the multiple barreled, sixty-plus horsepower augmented and magnified skyrocket. He has just completed working models on the \$5,000 fund granted for the experiment by the Smithsonian Institute. A rocket capable of reaching the moon, Professor Goddard estimated, would cost around \$100,000.

## "POOR MAN'S LAWYER" HAS ITS FIRST WOMAN ATTORNEY

"Legal advice," said Miss Dorothy Fooks, attorney for the Salvation Army, at National Headquarters, New York City, "ought to be given away

MISS DOROTHY FOOKS

It serves as "The Poor Man's Lawyer." That is the reason why, armed with a legal degree, dated 1918, an admission to the bar, on which the ink was scarcely dry, 22 years of youth and more than ordinary good looks, she opened her office at Salvation Army Headquarters, 122 West Fourteenth street, New York City.

Miss Fooks has made good. She has untangled many family snarls without resorting to the divorce courts. She has obtained justice for tenement dwellers who have been preyed upon by landlords, installment collectors and loan sharks. She has helped pay off mortgages, settle wills and draw up contracts. She has defended criminal actions in court and protected the rights of men and women who were prevented by iron bars and prison gates from managing their own affairs.

But that's not all. It was found that an additional legal adviser was needed by the Salvation Army to look after its \$10,000,000 worth of property— orphan asylums, maternity hospitals, industrial homes, day nurseries, schools—scattered throughout the length and breadth of the land. Miss Fooks was given the work. Again she waded triumphantly through the task.

It is no uncommon thing for the Salvation Army to receive urgent calls from the poor for legal advice and assistance, and when the cases are worthy the Army obtains competent lawyers and sees that justice is obtained. This is one of the incidental developments of the Army's many activities which bring it into intimate contact with the poor, the unfortunate and the misfit country over.

Attorneys in many cities make it a practice to give their services free to those recommended by the Salvation Army. Miss Fooks is the first woman lawyer to "hang out her shingle" with the Army.

for the asking. It ought to be dispensed like religion and medicine."

This is the reason why Miss Fooks chooses to cast her legal career with the Salvation Army, to aid that organization in the part of its work in which

## New Triplex Springs Iron Out Rough Roads

ROUGH ROADS seem smoothed out by the wonderful new Triplex Springs of Overland 4.

Triplex Springs hold the wheels to the road, while the passengers ride in comfort. Their astonishing qualities have created an entirely new conception of light car riding ease.

This comfort is now obtainable in a light car with economy in fuel and tires and remarkably low upkeep cost.

Overland 4 is started and lighted by the Auto-Lite two-unit system. It has U. S. L. batteries. It is equipped with all the latest car essentials and conveniences.

AERO-AUTO CO.  
1101 King Street

## Tree Owners Attention!

We have successfully operated throughout this city and vicinity for four months during which time it has been our pleasure to serve many persons. The confidence placed in us and our work was such as to make it expedient that we remain longer than we first anticipated, but we are now forced by pressing contracts in other cities to leave in the near future.

It is our ambition and earnest desire, however to serve every property owner in Alexandria having work of this nature, and we are taking this means to request that those whose trees are still in a state of neglect get into communication with us within the next few days. Our treatment is efficient to the extent of making it unnecessary that further work be done for from five to ten years. We do not know of one dissatisfied client among the many we have served.

This is our final advertisement this year so, we again urge those people who appreciate trees, to call on us for estimates or advice. This is the proper and best season for work of this nature.

Address communications to

Robert H. Forman

220 NORTH COLUMBUS STREET, ALEXANDRIA, VA.
